

Hope everyone is keeping safe amidst these trying times!

We take this opportunity to explore support for the communities, particularly in time of distress and calamity in India. Past few months have unleashed a new challenge to the entire humanity in form of COVID-19, which is a severe challenge specifically to the Healthcare providers such as Shroffs Foundation Trust Hospitals working in Tribal and Rural areas in Gujarat State.

Ramkrishna Paramhansa Hospital, Kalali (Vadodara) hospital which is managed by Shroffs Foundation Trust has been designated as COVID Care – Stage 2 centers (42 Beds) by Vadodara Municipal Corporation. Similarly Sharda Medical Center (Chhotaudepur) hospital in the Tribal District, also managed by Shroffs Foundation Trust has been designated as COVID Care- Stage 1 with 18 beds. As on date, we are running to practically full capacity with occupancy on all beds. This is over and above the normal patients who are coming to our hospitals for regular treatments for various specific ailments including dialysis, gynecology, pediatric and general surgery etc. While our Doctors and entire paramedical staff are putting their best foot forward, support in terms of Equipments/Health gear at such moment will be indeed of great help.

We need support in the following areas, and would be grateful for your kind consideration.

Sr. No	Details	Quantity	Unit Cost (Approx)	Total Cost (Approx)
1	Oxygen Concentrators	40	INR. 75,000/- (US\$ 1000)	INR. 30,00,000/- (US\$ 40,000)
2	Ventilators	10	INR. 750,000/- (US\$ 10,000)	INR. 75,00,000/- (US\$ 100,000)

The aforementioned material and support will help in ensuring quality treatment to the COVID patients getting treated at our hospitals, besides securing the Healthcare and supporting staff to serve the needy in best possible way.

We have taken concrete steps to ensure the complete isolation of the COVID ward, and availability of support including Portable X Ray, Medicines, COVID Testing area, Diagnostics, Special Waste Disposal System and other related paramedic interventions.

We are approaching various Donors to support us for the aforementioned assistance, or a part of the same. Please extend your kind support in optimum manner by either sending the Oxygen Concentrators/ Ventilators at our address or donate in the bellow mentioned details of Bank accounts. Your support will go a long way to ensure good medical treatments to COVID patients.

Warm regards,

Vikas Vaze
